

Under the **European Green Deal** and the **Chemicals Strategy for Sustainability** "CSS" the European Commission adopted the **Farm to Fork Strategy** to make food systems fair, healthy and environmentally-friendly and to achieve a **sustainable use of pesticides in the EU**, and is working on the revision of **REACH Regulation (EC) No 1907/2006**, more specifically is planning to introduce a new registration obligation for certain **polymers**, to further improve the protection of human health and the environment against hazardous chemicals and to encourage innovation to develop safe and sustainable alternatives.

LabAnalysis is hosting a webinar series to share their knowledge on challenges faced by companies when registering **plant extracts** under 1107/2009, on the impact of the **new EFSA guidance on bees** and on new registration obligation for **polymers under REACH**.

Join our live webinars for **free**. See details below.

Regulatory and analytical challenges in the characterisation of natural extracts under 1107/2009

5/10/ 2023
11:00-12:30 (CET)
Language: English

Stefano Jondini
CEO - **Expedia Mrcc S.r.l.**

Mercedes Pardo Martinez
Study Director - **LabAnalysis**

Maria Chiara Neri
Test Facility Manager - **LabAnalysis**

The consequences of the revision of EFSA guidelines on bees

09/11/2023
11.00 (CET)
Language: English

Claudia Garrido
Bee health expert and founder of **BeeSafe**

Benedetta Ponti
Study Director - **LabAnalysis**

Carlotta Casalegno
Business Development Manager - **LabAnalysis**

New registration obligation for polymers under REACH

25/01/2024
11.00 (CET)
Language: English

Monica Locatelli
CEO - **TEAM Mastery**

Guido Premoli
Technical Director - **LabAnalysis**

Mercedes Pardo Martinez
Study Director - **LabAnalysis**

Carlotta Casalegno
Business Development Manager - **LabAnalysis**
