

# Cosmetics

# Innovating beauty science

+1.000  
accredited tests

+ 900  
employees

15  
laboratories

+26.000 sqm  
labs and  
offices

## WHY US?

**CONSOLIDATED KNOW-HOW:**  
MORE THAN 45 YEARS IN CONSULTING,  
ANALYTICAL AND TESTING SERVICES

**HIGHLY QUALIFIED PERSONNEL**

**STATE-OF-THE-ART EQUIPMENT**

**PERMANENT COLLABORATION WITH  
UNIVERSITIES**

(EXPERIMENTAL GRADUATION THESIS)  
**AND DERMATOLOGICAL CLINICS**  
(SPECIAL STUDIES)

**CONSTANT INVESTMENT IN SCIENTIFIC  
RESEARCH**

## AUTHORIZATIONS

UNI EN ISO 9001:2015

ACCREDIA UNI CEI EN ISO/ICE 17025:2018

**Certification of compliance with GLP**  
(Good Laboratory Practices)

**Authorization for quality control of human  
medicinal and experimental devices  
according to GMP** (Good Manufacturing Practice)

## R&D and technical Consultancy

- Support on Formulation strategies: skin care, sunscreen product, skin cleansing, hair care
- New product in after launch phase: optimise manufacturing process and save on production costs
- Stability and compatibility problem solving and testing
- Applications studies of new raw materials
- Technical Market trends
- Benchmarking: profile of competitors products
- Technical and scientific articles for magazines

## Courses & Seminars

- Training for researchers, laboratory, productions staff, dermatologists, chemists, technicians and sales agents
- Orientation and information workshops
- Seminars to identify market key success and opportunities

## Regulatory

- Preparation of technical and safety data sheets
- Product labelling
- Product compliance with current international standards
- Product Information File preparation; Cosmetic Product Safety Report
- Raw materials and stability certification
- Claim substantiation
- Importation of cosmetics from non-EU countries

## Evaluations

- In-vitro test**  
Citotoxicity, phototoxicity, skin corrosion, skin irritation, ocular irritation, sensitization, het cam, anti-pollution, antioxidant, anti-aging, detox, DNA protection
- Safety test**  
Patch test, HRIPT, comedogenicity
- Test under medical control**  
Dermatologically, ophthalmologically, gynaecologically tested
- Efficacy tests**  
Hydration, elasticity, pHmetry, evaporimetry, sebometry, barrier, lenitive effect, 3D profilometry, cell renewal, anti-dandruff, phototrichogram, pull and wash test, colorimetry, glossimetry, flowmetry, ecography, thermography, deodorant and antiperspirant efficacy, anti-cellulite, anti-stretch mark, anti-acne
- Make-up**  
Long lasting, no-transfer, kiss proof, waterproof, sweat proof, lengthening, volumizing, curling (mascara)
- Solar products**  
SPF Water Resistant ISO, UVA ISO, SPF FDA, sand repellent, sand resistant, friction resistant, sweat resistant
- Sensory tests**  
Triangle, duo-trio, paired comparison, ranking, quantitative descriptive analysis, home use

## Analytical Testing

- Conformity to approved reference
- Stability & Compatibility Trials
- Impurities identification (heavy metals, preservatives, peroxide value, pesticides, etc)
- Microbiological analysis
- Migration Tests
- Particle size determination on sprayable product
- Microplastics determination
- Biodegradability

**LabAnalysis**
